Sound advice...

- ✓ Shade out the times of the week when you are committed to other things (clubs *etc*).
- ✓ Revising for an exam **LITTLE AND OFTEN** is better than trying to do too much in one go.
- ✓ Build some relaxation into your revision schedule.
- ✓ Revise in a way which suits you best. Revising with friends sounds like a good idea, but it can be very distracting.
- ✓ Using the internet for revision *can* be useful, but also very distracting. Revise away from your phone and computer to remain focused.
