

## Year 11 Unit 1 Overview-Number and Algebra:

Target grade for tests:

You will learn about:

- Numbers and the number system (HCF, LCM, prime numbers)
- Accuracy
- Using standard form to write large and very small numbers
- The importance of performing operations in the correct order
- Simplifying and manipulating algebraic expressions

You will be able to:

- Identify and find factors, multiples, primes, HCF and LCM and use them to solve problems.
- Multiply, divide, add and subtract with integers, decimals and simple fractions.
- Round any whole number or decimal and use estimation to check calculations.
- Use BIDMAS in situations involving brackets, powers, roots and reciprocals.
- Interpret standard form  $A \times 10^n$ , where  $1 \leq A < 10$  and  $n$  is an integer.
- Use and interpret algebraic notation.
- Simplify and manipulate algebraic expressions involving powers.
- Substitute numerical values into Scientific formulae.
- Rearrange formulae to change the subject.
- Communicate your methods verbally, using a range of mathematical vocabulary.
- Structure your methods showing clear steps of workings.
- Apply your skills to solve a variety of problems in real-life contexts.

### Lesson Overview

#### NUMBERS AND THE NUMBER SYSTEM

- Recall prime numbers up to 100
- Understand the meaning of prime factor
- Write a number as a product of its prime factors
- Use a Venn diagram to sort information
- Use prime factorisations to find the highest common factor of two numbers
- Use prime factorisations to find the lowest common multiple of two numbers
- Know how to identify any significant figure in any number
- Approximate by rounding to any significant figure in any number
- Write a large (small) number in standard form
- Interpret a large (small) number written in standard form

#### CALCULATING

- Add or subtract from a negative number
- Add (or subtract) a negative number to (from) a positive number
- Add (or subtract) a negative number to (from) a negative number
- Multiply with negative numbers
- Divide with negative numbers
- Know how to square (or cube) a negative number
- Substitute negative numbers into expressions
- Enter negative numbers into a calculator
- Use a scientific calculator to calculate with fractions, both positive and negative
- Interpret a calculator display when working with negative numbers

#### CALCULATING Continued

- Understand how to use the order of operations including powers
- Understand how to use the order of operations including roots

#### ALGEBRAIC PROFICIENCY: TINKERING

- Know how to write products algebraically

### Key Words

Refer to <http://studymaths.co.uk/glossary.php> for definitions of the key words

Prime  
Prime factor  
Prime factorisation  
Product  
Venn diagram  
Highest common factor  
Lowest common multiple  
Standard form  
Significant figure  
Negative number  
Directed number  
Improper fraction  
Top-heavy fraction  
Mixed number  
Operation  
Inverse  
Long multiplication  
Short division  
Power  
Indices  
Roots  
Product  
Variable  
Term  
Coefficient  
Common factor  
Factorise  
Power  
Indices  
Formula, Formulae  
Subject  
Change the subject

### Notation

- Use fractions when working in algebraic situations
- Identify common factors (numerical and algebraic) of terms in an expression
- Factorise an expression by taking out common factors
- Simplify an expression involving terms with combinations of variables (e.g.  $3a^2b + 4ab^2 + 2a^2 - a^2b$ )
- Know the multiplication (division, power, zero) law of indices
- Understand that negative powers can arise
- Substitute positive and negative numbers into formulae
- Be aware of common scientific formulae
- Know the meaning of the 'subject' of a formula
- Change the subject of a formula when one step is required
- Change the subject of a formula when a two steps are required

Index notation: e.g.  $5^3$  is read as '5 to the power of 3' and means '3 lots of 5 multiplied together'  
 Standard form (see key concepts) is sometimes called 'standard index form', or more properly, 'scientific notation'

**Suggested reading or support/challenge available**

Support is available from a Maths teacher in 'MORALE' in M1 daily from 1:30pm -1:45pm

**Pixl Maths App**

login: PY2415  
 username: surname followed by first initial  
 password: first name

[www.doddlelearn.co.uk](http://www.doddlelearn.co.uk)  
 See your teacher for your personal login details

**Mathswatch App (video clips and worksheets)**

school id: penryn  
 login: school username  
 password: octagon

[www.corbettmaths.com](http://www.corbettmaths.com)

Perfect for revision. Including practice exam questions on specific topics and the "5-a-day"

**Use your revision guide**

Use the code in the front of your guide to access your free online revision

login: PenrynStudent  
 password: Penryn

**Cross curricular**

**SMSC:**

- 1.1 Exploring, understanding and respecting cultural diversity e.g. exploration of different methods of calculation.
- 3.1 Developing personal qualities and using social skills (regular paired/ group work communication).
- 3.2 Participating, cooperating and resolving conflicts (paired/group activities).
- 4.2 Experiencing fascination, awe and wonder of mathematics.
- 4.4 Using imagination and creativity in learning.

**Literacy:** Verbal communication of understanding using key words in the correct context. Development of written communication of methods and strategies to problem solve.

**NAC:**

**Science** – Estimation. Round whole numbers and decimals. Order, add and subtract negative numbers. Use significant figures. Use standard form. Use formulae involving negative numbers. Use a calculator efficiently. Substitution into Scientific formulae, Rearrange formulae.

**Business** – Use formulae involving negative numbers.

**MFL** – Mental and written calculations with whole numbers and decimals. Use a calculator efficiently.

**RE** - Estimation.

**PE** - Round whole numbers and decimals.

**Geography** - Estimation. Round whole numbers and decimals. Use a calculator efficiently.

**Creative Arts** - Estimation. Round whole numbers and decimals. Use a calculator efficiently.
