

**Biology (Triple award) Year 10**

Test target for Year 10 is:

This year in Biology you will study human diseases and how the body builds immunity to these. The importance of drug development and the process of this. You will also study respiration and photosynthesis. Along with Homeostasis and the nervous system.

		Working Towards Target	At Expected Target	Above Expected Target	Test grade
Semester 1	B2 Organisation				
Overall unit performance					
FFL:	Meeting behaviour for learning standards	Actively engaged in the learning	Regularly complete HWK to a high standard	Completing CWK to a high standard	Is a resilient learner 'Doesn't give up easily'
Achieved:					

		Working Towards Target	At Expected Target	Above Expected Target	Test grade
Semester 2	B3 Infection and response				
Overall unit performance					
FFL:	Meeting behaviour for learning standards	Actively engaged in the learning	Regularly complete HWK to a high standard	Completing CWK to a high standard	Is a resilient learner 'Doesn't give up easily'
Achieved:					

		Working Towards Target	At Expected Target	Above Expected Target	Test grade
Semester 3	B4 Bioenergetics Biology paper 1				
Overall unit performance					
FFL:	Meeting behaviour for learning standards	Actively engaged in the learning	Regularly complete HWK to a high standard	Completing CWK to a high standard	Is a resilient learner 'Doesn't give up easily'
Achieved:
