

Chemistry (Triple award) Year 11

Test target for Year 11 is:

This year you will cover the content in units 7 – 10. Unit 7 is on organic chemistry where you will study the uses of crude oil. Unit 8 is about analysing chemicals. Unit 9 will look at the Earth's atmosphere and how it has evolved over time and how humans are impacting on it. Unit 10 is on sustainable uses of the Earth's resources.

		Working Towards Target	At Expected Target	Above Expected Target	Test grade
Unit C7	C7 Organic chemistry				
WTM	Walking Talking Mock exam				
Overall unit performance					
FFL:	Meeting behaviour for learning standards	Actively engaged in the learning	Regularly complete HWK to a high standard	Completing CWK to a high standard	Is a resilient learner 'Doesn't give up easily'
Achieved:					

		Working Towards Target	At Expected Target	Above Expected Target	Test grade
Unit C8 - C10	C8 Chemical analysis C9 The atmosphere C10 Sustainable development				
Overall unit performance					
FFL:	Meeting behaviour for learning standards	Actively engaged in the learning	Regularly complete HWK to a high standard	Completing CWK to a high standard	Is a resilient learner 'Doesn't give up easily'
Achieved:					

		Working Towards Target	At Expected Target	Above Expected Target	Test grade
Mock exam	Chemistry Paper 2				
Overall unit performance					
FFL:	Meeting behaviour for learning standards	Actively engaged in the learning	Regularly complete HWK to a high standard	Completing CWK to a high standard	Is a resilient learner 'Doesn't give up easily'
Achieved:					

Exam 2020	Date
Biology paper 1	12 th May
Chemistry paper 1	14 th May
Physics paper 1	20 th May
Biology paper 2	1 st June
Chemistry paper 2	10 th June
Physics paper 2	12 th June
