Penryn College Vision

We want to develop young people who are ready to make a positive contribution to their community. We want them to be polite, compassionate, considerate, and care for those around them.

Our students will have the skills and confidence to communicate well and to organise themselves effectively. They will work independently, work as part of a team, and be able to lead others. We want students who can read fluently, write, and be numerate. Our students will have a depth of knowledge in a broad range of subjects and study skills.

They will know how to keep themselves happy, healthy, and safe. They need to be able to play their part in a modern democracy, to accept a range of different views, and to use their power to challenge the things that are not right in an appropriate way. We want their experience in school to be fun, engaging and inspiring. They need to leave us knowing there are even better times ahead, and confident that this is just the start.

As staff and Governors we want to enjoy what we are doing, to be able to focus on the most important aspects of our jobs, and to know we are making a difference. We want to work in an environment where professional expectations of ourselves are high, but the support is even higher. We want the parents and the community to see their young people shine in whatever field they choose.

Facts about The College

Penryn College is an 11 – 16 Academy for boys and girls aged between 11 and 16 years who live in Penryn and the surrounding villages of Constantine, Flushing, Mabe, Mawnan Smith, Mylor, Perranwell and Ponsanooth. Students also join us from outlying villages and Falmouth. Our roll from September 2021 is 1138.

We're a lively, thriving college and we pride ourselves on offering the very best for our students.

Penryn College opened originally in Falmouth in 1957 and was moved to its present site in 1961. Since that time there has been a programme of continuous improvement, updating of buildings and of classrooms. In September 2008, we opened the doors of Cornwall's first £23,000,000 "School for the Future", and in 2011 we became an Academy. The Governors, University College Falmouth and University of Exeter, Sport England and other sporting agencies provided £1,400,000 for superb sports and creative arts facilities. These comprise of an international standard football and rugby all weather pitch, an astro hockey pitch and covered netball and tennis courts.

We want children to achieve their very best in school and in life.

High quality learning is at the heart of everything we do. Because we prepare young people for their futures, it is really important they know how to keep themselves safe in life and online. Every child receives an iPad when they start at the College so they can learn to search, explore, investigate and make decisions using IT. This means students have the wonders of the world at their fingertips in a safely controlled environment. We also currently have up-to-date networked computer rooms, a Mac Editing Suite and extensive Wi-Fi access to support high quality learning and independent study. Our customised "Virtual School" means students can access learning outside lessons and at home. It also helps parents learn first-hand about their child's daily school life.

Our students are given help and guidance in their final year to make the most appropriate choices for their post-16 education and for their future. When our students leave us at 16, the vast majority continue in full time education studying in a variety of local institutions.

Our College buildings, amphitheatre and grounds are used extensively for learning by local students during the school day, after school and in the holidays. We are proud that we are a community school used by the community for sporting activities, performances and fundraising activities.

Safety is everyone's responsibility

We take our responsibility to promote children's welfare and keep them safe extremely seriously. We create the very safest and caring environment in which your young people can understand themselves and others while they learn about the world in which they live. We believe that to prepare our students for a full role in Modern Britain it is essential that they understand and celebrate that Britain is multicultural and diverse.

When can I visit The College?

Any time at all. Simply visit the school website to make an appointment and a member of staff will be happy to show you our College during or after class time. The Headteacher is often at the front of school at the start and end of each day to meet parents and students. In September 2021 there are 210 Local Authority places available for Year 7 students. Penryn College adheres to the admissions policy operated by Cornwall Council on the College's behalf.

Who cares for my child?

At Penryn College we make considerable efforts to look after your child in every way. Our system of care and guidance involves every teacher and member of staff. All the staff meet daily to ensure that any matters of concern are speedily dealt with and we also have a team of Student Progress Officers allocated to each year group who work closely with those students who are finding things difficult.

We work very closely with our **Local Primary Schools** so that your child's move from Primary School to Secondary School is as smooth as possible. Even before your child attends Penryn College, we hope that your family will have visited us on several occasions - to look around the school and its facilities, to meet with the Head of Year 7 and your child's tutor. Our teachers visit your child's Primary School so that their faces are familiar before your child joins us. Towards the end of the summer term, all our new students spend a full day with us and take part in a full range of lessons and activities.

Your child will be placed in a **Tutor Group** which takes account of friendships they have formed in the Primary School and which contains a cross section of abilities. The group is under the guidance of a **Form Tutor**. All Year 7 students take part in a day's activity in our Outdoor Education area, to help us assess key skills of communication, leadership and teamwork. This is followed by a residential course on the Isles of Scilly in July which builds upon what students have learnt during their first year. They will also be attached to one of four Houses.

In Year 8, students join a House tutor group which contains students of all ages. They will remain together until the end of Year 11. Each House also has a member of the Education Support Team whose role is specifically to look after the welfare of the children and ensure they make good progress.

Your child will meet their Form Tutor every day to discuss school arrangements, settle queries and organise form activities. Additional time is also regularly set aside to enable your child to review their school work and organise homework/prep time with their tutor.

All staff work closely with the **Head of Year 7, Heads of House** and **Subject Department Heads** who have charge of the welfare, discipline, academic and social development of your child. We must not forget the clerical, technical and other support staff who give help to the children every day.

Care for students with medical needs

This College takes responsibilities for students with medical needs very seriously. The College has established policies based on the policies and guidelines determined by the Local Authority as advised by and agreed with the Health Authority. For example: students on the Asthma Register have access to an emergency inhaler, should the need arise. Staff have access to training on a regular basis.

My child is very able, what provision is available for them?

All department programmes will offer these students a variety of extended learning opportunities and cross curricular projects. Our teachers are experienced at setting challenges within the classroom to meet individual's needs. Many subjects have brought a stretch into the lower school classroom with GCSE style work and this is continued into upper school with A-Level work. Alongside these opportunities we run trips to a range of Universities, and have had guest speakers from Oxbridge to inspire our young people and explain entrance processes.

What if my child has Special Educational Needs?

Penryn College's policy for students with Special Educational Needs complies with the most recent Education Act and the Code of Practice.

We are committed to identifying and providing for the needs of all students. A climate of warmth and support is fostered in which self-confidence and self-esteem can grow and in which students feel valued and able to risk making mistakes as they learn without fear of criticism. We have a well qualified and experienced team of Teachers and Teaching Assistants to support those with Special Educational Needs.

Many students with Special Educational Needs are taught in smaller groups and by an experienced specialist teacher, with help from Teaching Assistants. There is an extensive range of special provision throughout the school curriculum, and outside it, designed to support inclusion and full entitlement.

Education Support

If a child is experiencing learning and behavioural problems, we refer them to our Skills Centre Team. This is situated in a suite of rooms at Penryn College where experienced staff work closely with children to address their behaviour and to develop a package of support to enable them to participate effectively in mainstream classes without disrupting the work of other children.

Area Resource Base for vulnerable children

We are very proud of our provision for children with specific learning needs and are fortunate in having a facility which allows us to support a small number of these children through a personalised special educational programme. Entrance to the Area Resource Base is through application to the Local Authority.

What will my child study?

Lower School - In Years 7, 8 and 9 our curriculum complies with the Government's guidelines for a broad, balanced 'National Curriculum' of Core and Foundation subjects for all students. It includes:-

- ❖ English, Mathematics and Science (the core subjects).
- ❖ Geography, History and Religious Education.
- ❖ French or Spanish, with the option to take a second language out of hours.
- ❖ STEAM – a new project based approach centred on Technology and IT, but reaching out to Maths, Engineering, Science and the Creative Arts.
- ❖ Art, Music, Drama and Dance.
- ❖ Food & Nutrition.*
- ❖ Physical Education and Games.*
- ❖ Citizenship, Personal and Social Education including Health, Sex and Relationship Education.*

** All of these subjects form part of our Lifestyle programme.*

Year 7 students are taught mainly in ability groupings with some mixed ability classes. In subsequent years, there is broad setting by ability and sometimes gender in many subjects. We plan carefully for children with special educational needs. According to their learning requirements, some children are taught in small discreet groups for some subjects or receive individual teaching in English and Maths at Key Stage 3.

Upper School – In Years 10 and 11 our students follow the National Curriculum, which includes:-

- ❖ English.
- ❖ Maths.
- ❖ Science.
- ❖ Religious Education.
- ❖ Physical Education.**
- ❖ Careers Education.**
- ❖ Health Education and Citizenship including drugs and sex education.**

***All of these subjects form part of our Lifeskills programme.*

In addition to the above, our students can choose other GCSE subjects such as History; Geography; Design Technology options; Food & Nutrition; French; Spanish; Creative Media or iMedia/Graphics; Computer Science; Enterprise Studies (Business); Health and Social Care; Hospitality & Catering; RE; Art & Design; Craft or Textiles; Music; Dance or Drama GCSEs. We offer our students a combination of courses with different emphases. This allows them to follow their own interests while maintaining a wide spectrum for post-16 options. All students, irrespective of ability, are encouraged to enter GCSE examinations as long as the course requirements are met. Those students who reach the standard of the English Baccalaureate are encouraged to choose History or Geography and a Modern Foreign Language. Native speakers are able to sit GCSEs in their chosen language without following a school course of study. There are extensive opportunities to develop leadership skills through a range of subjects and extracurricular opportunities.

For those students for whom it is appropriate, a specialist programme of support is offered to assist pupils in achieving their qualifications. A detailed brochure describing our GCSE courses is issued to all parents for students making their options choices and is supported by parent/teacher meetings, individual discussions and a structured guidance programme.

In school, students spend 33.75 hours minimum a week in College. Lessons account for 26.25 hours, with the remaining time spent on registration, lunch and morning breaks.

How is PSHE delivered?

In Years 7, 8 and 9, we deliver lessons of Life Skills in a dedicated slot of time, one double per fortnight, alongside pupils rotating through eight double lessons of Food Technology. The course promotes personal and social developments by working with students on individual and global issues, examining the world of work and enhancing students' studies through practice of and reflection on various skills including emotional understanding, communication, negotiation and debate. There is a strong emphasis on keeping a healthy, active lifestyle.

Our dedicated team of Lifestyle teachers are trained to facilitate discussing sensitive issues about health and wellbeing and will encourage students to explore their views on the world while being prepared to listen to the views of others. Key topics include relationships, drugs, alcohol and tobacco, sex education, careers, personal finance, democracy and government, law and human rights all with a leaning towards maintaining healthy habits and active lifestyles throughout life.

In Key Stage 4, our programme is delivered through the Life Skills course which focuses on helping students prepare for life, work and their responsibilities as a citizen. In Year 10 students follow a series of lessons on 'Keeping Healthy and Keeping Safe' which focus on drug, alcohol, sex and other issues. In Year 11 the course has modules focusing on diversity, moral issues, personal finance and global economy. The courses are supplemented by experts who are invited from recommended external agencies to provide workshops on a range of topics within our framework.

What is the Relationship and Sex Education Programme?

We believe that relationship and sex education should be taught within a programme that is concerned with the overall emotional, moral, social and physical development of the child. Relationships and Sex Education is delivered by a dedicated team of teachers, together with some Health Professionals who are invited from relevant external agencies, who are regularly invited to add their expert information, all within our Lifestyle Curriculum which combines PHSE (Personal, Social, Health and Economic Education), Food and PE (Physical Education) and Health & Social Care. Our Lifestyle RSE enhances and builds on the work delivered by the Science Department. An overview of this programme can be found under the 'Policies' section of our website.

What type of Philosophy and Ethics is taught?

RE teaches about people, cultures and morality, and also teaches students the life skills of critical thinking, evaluation, cultural understanding and empathy. What a person believes affects their behaviour. Students are encouraged to appreciate the value of studying other people's religions and beliefs. This will, we believe, develop their knowledge, sensitivity, appreciation and tolerance.

Philosophy and Ethics at Penryn College reflects national developments and follows Cornwall's agreed approved syllabus, SACRE (Local Standing Advisory Committee for RE). Our students study the major world religions and philosophies such as Christianity, Islam, Buddhism and Humanism. All students will study a GCSE Religious Studies course but can opt for studying the full course examination. At GCSE students study Christianity and Hinduism as well as different ethical and philosophical world issues.

Any parent wishing to withdraw their child from the act of collective worship component of the school assembly, or from Philosophy and Ethics, must make an official request in writing to the Headteacher. If this is authorised, the child may work in our supervised library.

What can the Physical Education Department offer my child?

Penryn College has a strong local and national reputation for high quality PE and school sport. We offer a wide range of activities from sailing and outdoor activities to traditional team games. In Years 10 and 11 all students can opt to take a GCSE/BTEC Level PE Course. Everyone has the chance to take part in developing their leadership skills with the opportunity to become accredited in Leadership. There is an opportunity to continue to learn in a wide range of clubs before and after school and also in community hours. In Year 11 students can choose to take part in performance sports on a Wednesday afternoon.

Outdoor experience is a key part of school life. This subject includes canoeing, climbing, orienteering, surfing, and kayaking. In Year 7 students have the opportunity to work with their tutors in the outdoors and to take part in the Isles of Scilly trip. In later years, students are able to obtain qualifications in a variety of outdoor activities.

In what sports can my child be involved?

Athletics	Dance	Sailing
Archery	Football	Tennis
Badminton	Gymnastics	Table Tennis
Basketball	Netball	Trampolining
Kayaking	Orienteering	Watersports
Cheerleading	Volleyball	Cross Country
Skateboarding	Surfing	Cricket
Rugby Union and League	Hockey	Softball
Strength & Conditioning	Handball	Swimming
Rounders	Surf Lifesaving	Triathlon

My child is talented at sport, what special encouragement will they receive?

For very talented students we offer expert coaching, mentoring and training in superb facilities. We also have extensive access to opportunities in community time which support an athlete's development.

What facilities for sport do you have?

INDOOR

Gymnasium
Sports Hall (6 Courts)
Fully equipped Fitness Suite
Indoor Netball/
Tennis courts

OUTDOORS

MUGA areas – (*Multi use Games Area*)
Synthetic turf hockey pitch
Synthetic turf Football/
Rugby pitch
Climbing Wall

FIELDS

Four Soccer/Rugby pitches
One Artificial Cricket Square
One 400 metre Track
Four lane Jumping Pit
Shot Circles

What about children who are talented in The Arts?

All students will receive an Arts curriculum that is 'live', enjoyable, real, that stimulates and maintains curiosity, interest and enjoyment enabling them to be more sensitive to, familiar with and confident across a range of art forms.

Students will be offered opportunities to take part in extracurricular activities during term time as well as through holiday and weekend programmes: e.g. *Music* (Concert and Performance opportunities, Royal Albert Hall, Bournemouth Symphony Orchestra, County ensembles, graded music exams and Grade 5 theory). *Dance* (Carrick, Elite Dance, links with Falmouth University Dance, KS3 Dance). *Art* (Extensive Extra Curricular programme, Design for Jubilee Wharf, Arts leaders including CAPA primary, Animation). *Media* (Work with Falmouth university students).

Our aim is for all students to be offered opportunities to take part in performances and exhibit work at least once a year. Students with potential are also encouraged to become Arts Leaders through the Bronze and Silver Arts Award. We provide opportunities for students to be selected to work with visiting artists and professional practitioners at least once a year from KEAP, Cornwall Music Service Trust, Cornwall Music Education Hub, CYMAZ.

How much homework will my child have?

In Year 7 pupils will have a staggered start to homework, so they can get used to the work load. Pupils will start by being set homework in English, Maths, Science and Technology and then gradually over the first half term other subjects will introduce setting homework. All students will have sessions of personal study on their timetable each week. This is silent time for students to work on homework, catch up and do private reading.

- Year 7 are given approximately 15-20 minutes of homework/independent learning tasks per subject per week (please see the exceptions to this, below).
- Maths and Science set homework once every week.
- English homework is set once each week (we encourage children to read at home in addition to this).
- ICT (Information Computing Technology), Modern Foreign Languages and Humanities set homework once a fortnight.
- Personal, Social, Health Economic Education and Citizenship (PSHE/C), Design Technology, Art and Drama set homework occasionally.
- Music and P.E. lessons are mainly practical in Years 7, 8 and 9. Students are encouraged to join the many extra-curricular clubs we have on offer at the College (please contact our Study Support Programme Manager, Jake Ash).

Students also have time in the school week to complete homework. These lessons are called personal study.

How will I know what my child is studying and how well they are doing?

You can find out exactly what each subject is teaching, when it is being taught, when it is assessed and how well your child has learnt their work by looking at the coloured sheets in your child's exercise books.

- A blue sheet at the front of your child's exercise books tells you what they are expected to learn in each subject by the end of the year.
- A green sheet details what students will know, understand and do in each unit of work.
- A yellow sheet records each student's final assessment at the **end of a unit** and whether they are working towards, at or above their target grade.

In most subjects, at the end of each unit, students undertake a formal assessment or test. Their result is graded from 1 – 9 (9 being the highest grade).

"Live" Reports

On your child's Page on the Virtual School, under **Live Assessments Tab**, you will again be able to find the grade your child received for that unit of work and feedback from the teacher about what they did well and how they could improve.

You will receive a paper Summary Report each term and in the Summer Term, a written report by your child's tutor.

What opportunities do parents have to talk with teachers?

Should you or your child have any query or concern, please phone the College as soon as possible to make an appointment to see the most appropriate person. This might be the Tutor, the Head of Department, or for problems of a more serious nature, the Head of House. Naturally if we have concerns about your child, we will contact you and ask you to come into the College to talk with us.

In Year 7 there is an opportunity to see the school and meet your child's teachers informally early in the Autumn Term and see how they are settling in. Each year group will have two further formal Parents' Evenings when you will be able to meet teachers and discuss your child's progress.

Parents and students are given detailed guidance prior to choosing GCSE options and there will be an information evening which supports this process.

There is an active Parents' Forum whose main functions are:

- To provide a starting point for parents to share in their child's education
 - To stimulate a three way channel for communication between school, parent and student groups
 - Providing information for parents
 - To be a source of constructive feedback on educational and social projects
 - To support student projects and help obtain extra funding.
-

Attendance

Good attendance is essential if a child is to benefit from the opportunities we provide. If a child is unable to attend the College is notified before the start of the school day at 8.40am. Concerns about absence are dealt with by Tutors, Heads of House and our Attendance Team. Our Educational Welfare Officer also regularly reviews attendance levels.

Please note that **permission for term time leave of absence can only be granted in exceptional circumstances.** This is an instruction from the Department for Education. **Any requests for holidays in term time will be refused unless there are very special reasons.** These must be addressed in writing to the Headteacher. We encourage children to have **full attendance** as this is shown to have a direct impact on achievement.

We operate an attendance system called "Schoolcomms". This system sends out an automated message to all parents if the school has not received a message explaining why the student is absent.

What about discipline?

Although the College aims to develop self-discipline in its students, limits on behaviour need to be set. We expect students to adhere to simple rules laid out in our 'Foundations for Learning' document. We value your support in this, because we realise that our sanctions work best if **our partnership with you** is strong. If a student misbehaves we will use a range of reasonable sanctions and remediation programmes to address this behaviour.

More serious misbehaviour can result in a temporary exclusion and/or being placed on the schools' stages of suspension. Sometimes a child will be removed from lessons and an individual programme will be delivered in the Skills Centre. Very occasionally a student's behaviour is deemed so unsatisfactory that permanent exclusion is the only course open to us. We also recognise that poor behaviour is sometimes rooted in more complex problems and as a result, we often liaise with outside agencies for advice and support.

Can I, as a parent, have access to policy documents?

Yes, by all means. Please visit the school website where you will be able to find school policies. If you wish for more information simply telephone the school office for an appointment and we will be pleased to give you access to policy documents and inspection reports. As a school, we adopt the County's Child Protection Policy and fully follow its recommendations.

If I have a complaint, what is the procedure?

Please telephone the College Complaints' Officer, Mrs. Tamsin Schouten, and tell her the nature of your complaint. Mrs Schouten will advise you who the appropriate person would be to deal with the complaint and will arrange an appointment with that person, at your convenience. However, if you are not satisfied with the outcome, please write to the Headteacher clearly stating your complaint. If you do not feel that the complaint has been dealt with to your satisfaction, please write to the Chair of Governors, care of Penryn College, who will decide what action to take.

Uniform

The College uniform, chosen by the Governing Body in consultation with the students, is smart, comfortable, practical and easy to purchase locally. We want our students to look like young men and women in a working environment. Please provide tailored trousers rather than those resembling “leggings” and help us encourage girls to wear skirts of a suitable length for the workplace.

A high standard of personal appearance is expected.

- **Make up** must be discreet and modestly applied.
- **Hair styles** - there should be no obvious hair dye or designs shaved into the hair. There should be no obvious hair accessories (large bows etc).
- **Jewellery** should be discreet and can only include one pair of stud earrings and one ring. **All other facial jewellery is inappropriate and should not be worn to College.**

Please support us in ensuring your child does not wear fashion extremes in school.

Please label **ALL** items of clothing. The loss of items causes students and parents considerable upset.

GIRLS

Plain black school skirt of a suitable length for school

Plain black school trousers (no tight trousers or leggings)

Plain white polo shirt with College logo

Plain black sweatshirt with College logo

BOYS

Plain black school trousers (not jeans or chinos)

Plain white polo shirt with College logo

Plain black sweatshirt with College logo

All students - black shoes (**No trainers, skate shoes or Vans, including leather Vans**)

School trousers should be formal, not a jean type, chino cut, or leggings. As a guide, there should be some space between the leg and the material from the knee down and this part of the garment should be able to hold a crease. School skirts should be of a suitable length and be appropriate for the workplace (ie. closer to the knee than the bottom). Black belts may be worn for the purpose of keeping trousers up and should fit and be worn through the trouser belt loop. Shorts may be worn but must be of a formal/tailored type cut and knee length, any others will not be allowed.

All school uniform with the College logo can be purchased through Castle Sports, who have a shop on Falmouth high street, through their website: www.castlesports.co.uk.

Sportswear

GIRLS

A-Game Red Polo Shirt

A-Game Black Skort or Shorts

A-Game Red Socks

BOYS

A-Game Red Rugby Shirt

A-Game Black Shorts

A-Game Red Socks

Optional Kit Items

A-Game Black Leggings

A-Game Black Track Bottoms

A-Game Red Hoodie

A-Game Black/Red Shower Jacket

Black Under-Layer Top

All PE kit listed above can be purchased through A-Game on the supplier's website:

www.agamesports.co.uk. Optional kit items are acceptable to wear in PE lessons if preferred. Other items of sportswear will not be suitable. School jumpers are not to be used in physical lessons.

What equipment must I provide for my child?

Pens, pencils, coloured pencils, ruler and eraser.

A bag or case for books.

Maths equipment – calculator, compass and protractor.

Charges and Remissions

The Governing Body recognises that additional activities, for example: day and residential educational visits, music, sport, theatrical performances – beyond the normal scope of the National Curriculum helps to provide a broad balanced, personal and social education for the children in the school. The Governing Body is aware of the economical and financial circumstances and endeavours to keep costs as low as possible. To provide these activities, parents will be asked to pay a voluntary contribution to cover costs. No child will be excluded from any activity organised by the school because of an inability of a parent to make a contribution but an activity will be cancelled if voluntary contributions by parents do not cover the full cost.

Activities for which charges may be made:

- a) The board and lodging element of any residential activities in or out of school hours.
- b) The full cost to each pupil of any activities taking place outside school hours (“optional extras” i.e. not an essential part of a prescribed public exam or required to fulfil statutory duties relating to the National Curriculum or to Religious Education).
- c) The cost or supply of materials and ingredients in Food and Design Technology and other subjects, where parents have indicated in advance that they wish to own the finished product.
- d) Entry fees for prescribed public exams (including re-sits) where a pupil has not been prepared by the school and for non-prescribed examinations.
- e) The entry fees for prescribed public examinations for which the school has paid (or are liable to pay) if a pupil fails without good reason to complete the examination requirements - recoverable as civil debt at the school's discretion.
- f) The charges which may be made by the examining board for re-scrutiny or re-marking of exam papers at the request of parents.
- g) The costs of repairing or replacing equipment or property lost or damaged by pupils.

The Governing Body may, from time to time, amend the activity for which a charge may be made.

Qualifying for remission or help with charges

In order to remove financial barriers from disadvantaged pupils, the Governing Body has agreed that some activities and visits where charges can legally be made will be offered at no charge, or a reduced charge, to parents in certain circumstances.

Where a pupil is in receipt of (or registered for) free school meals or where the family is in receipt of Universal Credit, the Governing Body will cover the pupil's cost of board and lodging for any residential activity that it organises for the pupils if:

- the activity is deemed to take place within school hours;
- it forms an essential part of the syllabus for a prescribed public examination;
- is required to fulfil statutory duties relating to the National Curriculum or to Religious Education.

There may be other cases of family hardship which make it difficult for pupils to take part in chargeable activities. When arranging these activities, the Governing Body will invite parents to apply in confidence for the remission of all or part of the charges. Applications will be considered by the Headteacher and notified in writing.

Parents shall not be charged at a level intended to subsidise the participation of other children. The total amount of remissions awarded will be reported to the Finance & Premises Committee annually. A full copy of the policy is available on our website.

Dates and Times for the Academic Year 2021/2022

Session Times

Morning	8.40am – 1.10pm
Afternoon	1.55pm – 3.25pm

Autumn Term Begins *7th September 2021 – 17th December, 2021 (inclusive)*

Half Term *25th October 2021 – 29th October, 2021 (inclusive)*

Spring Term Begins *4th January, 2022 – 8th April, 2022(inclusive)*

Half Term *21st February, 2022 – 25th February, 2022 (inclusive)*

Summer Term Begins *3rd May, 2022 – 22nd July, 2022 (inclusive)*

Half Term *30th May, 2022– 3rd June, 2022 (inclusive)*

The school will be closed to pupils on the following days:

Training Day	6th September 2021
Training Day	24 th September 2021
Training Day	29 th November 2021
Training Day	11 th March 2022
Closure Day	25 th July 2022
Closure Day	26 th July 2022

What help will my child receive in choosing a career?

There is a strong commitment in the College to Careers Education, Information and Guidance (CEIAG). All students take part in a planned programme of CEIAG that is delivered through Life Style and Life Skills lessons and the tutor programme using the Unifrog platform. This is designed to help broaden aspiration and encourage students to reach their full potential. It aims to encourage and develop the skills our students will need in the rapidly changing world, to prepare them for further education, training and work and to help their understanding of themselves and others.

The Careers Education Programme is complemented by a range of opportunities designed to give students clear and impartial information, advice and guidance: a careers area in the Library for all students to use; online resources accessed through the intranet; opportunities to visit local colleges and universities; Work Experience in Year 10 and individual Careers Guidance interviews through Careers Southwest. The Careers Southwest Advisor is available to Years 8, 9, 10 and 11 students and focuses on those who may need more support.
