"Achieving through Challenge"

22nd July 2022

Dear Parent/Carer(s)

As you know, this week was my final week at Penryn College (with students in the building). I have worked at the school for 20 years, having started in 2002, and I have never wished to work anywhere else since.

I have always been very grateful for the warm welcome that I have received here, and I am proud to have been part of such a special school and community. I'm not sure if 20 years counts me as a 'Rynner' yet, but I hope it does!

It has been a privilege to live locally and see so many people set out on their life journeys. First, I saw them in school, then in their workplaces, and now some of their children are students here at Penryn College.

The College is built on such solid foundations, with a fabulous community, staff, governing body and students - and I know it will go on to enjoy every success in the future with Mrs Schouten as headteacher. I will follow the progress of both the school and ex-pupils closely. These individuals are the next generation of the community and are a credit to themselves and those around them.

Thank you for all your support over the years. I wish you all the best.

Paul Walker  
**Headteacher**
